Leipzig-based heavy trio blends a wide variety of genres to create a sound all of their own

The Leipzig-based band blacktoothed is regarded as an exciting force on the diverse heavy music scene and is known for its ability to seamlessly blend elements from various genres. Whether it's breathtaking '80s shred guitar solos, catchy autotune pop melodies or brutal breakdown riffs, blacktoothed know exactly how to captivate a wide-ranging audience.

Since the release of their latest album "JULI" in the summer of 2022, singer Hendrik Rathgeber, guitarist Matti Keitel and drummer David Sommer have racked up over 800k streams. Their unique repertoire enables them to perform effortlessly alongside a wide variety of artists and transcend genre boundaries. As a result, they have already shared the stage with a number of stylistically diverse bands, including The Ghost Inside, Hands Like Houses, Bad Omens, Thundermother and Annisokay.

With their last two singles, "Novocaine" and "Carried Away", blacktoothed are pushing the boundaries even further, taking their dynamic blend of rock, beats and breakdowns to a whole new level. Guitarist Matti's unique approach to songwriting has caught the attention not only of their fans but also of the industry. The band's latest releases have opened doors for them, and they have finally secured a joint tour with The Amity Affliction and Emmure for August 2024.
