

BLACKTOOTHED

FERAL BLOOM TOUR 2027

Leipzig-based heavy trio blends a variety of genres to create an unique sound
New album "FERAL BLOOM" to be released on January 15th, 2027

Precision songwriting and stage presence that sticks — blacktoothed hit hard and stand out. Their songs combine modern metalcore songwriting with 80s heavy metal vocal energy, creating hooks and riffs that stay with you.

Hendrik Rathgeber delivers a vocal range that moves from soulful clarity to raw, powerful metal bursts. Mathilde Keitel, guitarist, songwriter, and co-vocalist, adds sharp, crystal-clear tone and blistering guitar work. Together, their interplay makes blacktoothed instantly recognizable, with a sound that cuts through the crowded metal scene.

The trio is highly experienced in the live production of tours and festivals, delivering tight, authentic, and engaging performances. They've toured with some of the scene's goats like The Amity Affliction and Miss May I, amassed over 1.5 Million Spotify streams, dominated playlists and made waves on German radio (e.g. Radio BOB!, Rockantenne & Radio 21).

blacktoothed's latest single releases served them a rapidly growing live and online fanbase and a 2026 festival summer at Europe's finest metal/core festivals, such as Summer Breeze, Full Rewind and many more. With dropping singles every month since April '26, the band is shaping up for their third album FERAL BLOOM [out Jan 15, 2027] under heavy music label Arising Empire, primed for festival stages and headline-ready shows.
