

FINAL STAIR

LIVE 2026

Berlin rock trio set to perform live in 2026

Final Stair celebrate the light and darkness around them with thunderous grooves and driving hooks. Named 'Newcomers of the Year' by the editorial team at StarFM Maximum Rock, they are the latest discovery on the rock scene. They are now presenting their second studio album.

With „Hope“ (2022), the Berlin trio – comprising twin brothers Istvan and Denes Vörös and André Seidel – previously released an impressive debut album. Featuring tracks such as „Dreamhunter“ („a big fuck you to everyone who ignored us“), „Never Felt Before“ („an old song that represents our grunge roots“) and „Morning Dew“ („one of our biggest hooks“), which evoke the anthemic grandeur of Snow Patrol, Queens of the Stone Age, Biffy Clyro and The Killers in a way that feels completely fresh and new, „Hope“ will undoubtedly be remembered for a very long time to come.

Final Stair have come a long way and have already achieved a number of successes. Their songs reach a global audience and feature on influential playlists such as New Music Friday; they have been licensed by Netflix and have appeared on compilations released by Universal Music. The media coverage on the international stage is equally impressive, with features in KERRANG! in the UK, Alternative Press and Digital Tour Bus in North America, Tonspion and Dressed Like Machines in Germany, and radio airplay in countries including Germany, UK, France, Spain, Italy and Australia.

Live, Final Stair have already toured China and Europe. They have headlined at the MAO Livehouse in Shanghai and performed on the stages of numerous festivals such as Sazavafest, Focus Festival, Taubertal Festival and Dithmarscher Rockfestival.

Final Stair are unstoppable and prove that, when it comes to creativity, intensity and energy, there is still plenty of room for growth.
