

Okvsho +experience - Frozen Flashes Album Tour

Okvsho is the Zurich-based project of brothers Georg and Christoph Kiss. Rooted in beat-making, electronic music and modern jazz, they have become one of the most distinctive projects to emerge from Switzerland in recent years. A quite phenomenon with a large digital following and a name that keeps turning up among record collectors.

From *Orange Wine* to *A Place Between Us*, the duo built a growing international audience and developed a clear identity of their own. After a 2025 European headline tour that included a sold-out show at London's legendary Jazz Cafe, they went back to the studio with a clearer sense of where the project had arrived and where it could go next. The result is *FROZEN FLASHES*, their upcoming album, which will be released on 18 September 2026. It marks the next step in a project that has grown steadily without losing its edge. Alongside the music, they also run Current Moves, their Zurich-based label and platform, through which they release their own work as well as music by other artists.

Okvsho +experience is the project's five-piece live band. Built around improvisation, trust and the idea of jazz as dance music, it brings the music into a live setting where each show leaves room for spontaneity. That is what gives the concerts their force. This tour is where the new material comes fully into its own.

Okvsho +experience Line-up: Sara El Hachimi (saxophone & flute), Bérénice Awa (percussion), Georg Kiss (drums), Christoph Kiss (keys & synths), Elias Kirchgraber (bass), Moritz Werner (sound).
