**“We grew up in Hamburg, not in Liverpool.” - John Lennon**

The Come Together Experience is a two day, multimedia and audiovisual festival set in Hamburg, Germany, celebrating The Beatles and their impact on Pop culture which began in the city more than 60 years ago and went on to impact the world.

The event takes us on a magical tour of pop culture beginning with the first Beatles concerts at the legendary Indra Club in 1960 and into the now with various contemporary events with a Beatles flavour.

The first edition of the Come Together Experience which had been due to have begun back in 2020, was canceled due to the pandemic but will this year take place from 30th June to 1st July 2023 in Hamburg's famous St Pauli district.

The event is centred around the fab four who founded their career in Hamburg and reflects on the stylistic and pop-cultural influences that make the Beatles so relevant today, 60 years after their journey began.

The festival which features performances from top class and high authentic tribute acts such as The Bootleg Beatles from UK and Sweden's Pepperland also draws on a pool of local artists and established international acts from all over the world.
