

ONEFOUR announce their first ever headline tour of the UK and Europe, LOOK AT ME NOW. Australia's most infamous outfit bring their explosive live show direct from Western Sydney, including the double platinum 'The Message', and the triple platinum, 'Spot The Difference' as well a host of new material.

ONEFOUR were the subject of the Netflix documentary film, 'Against All Odds' which got a global release and debuted at #2 in Australia. 2024 was a massive year for the group supporting The Kid Laroi on his stadium tour of Australia. Now hot off a string of some big UK collaborations including Headie One, Nemzzz, Abra Cadabra, and the latest with pop sensation Mabel, the pent up demand for ONEFOUR is at an all time high. Their SPINNIN Remix turned into a TikTok craze over the winter and catapulted the band into the Spotify Viral 50 charts in over 30 countries. Controversial, talented and iconic, it's impossible to talk about Australian rap without mentioning ONEFOUR. The 4 lads hit the road in May 2025:
